All Herbaria soaps start with olive oil, palm kernel oil and soy oil. Olive oil is renowned for its moisturizing qualities. Palm kernel oil makes our bars hard and long lasting. Soy oil produces a luxurious and copious lather.

In addition to a moisturizing base, natural emollients are added for extra moisturizing benefits. This is called "superfatting." Avocado oil, hemp seed oil, jojoba oil, and shea butter are our emollients of choice for superfatting our bars.

Glycerin, a terrific skin softener and emollient, is in every bar. It comes as a natural by-product of "cold process" soapmaking.

All-natural essential oils create wonderful fragrances and imbue our bars with healthy benefits. We use no synthetic fragrances, artificial preservatives or colorings.
